

**For Release Time  
April 8, 2019**

## **Tilden Marcellus, LLC**

*Marshlands Area, Tioga County, PA*

**Houston, TX— April 8, 2019** — Tilden Marcellus, LLC announces that it is currently working with Apex Petroleum Engineering to optimize well spacing and completion methodology in the Marcellus formation. Tilden Marcellus expects to advance a completion design and development plan that will outperform current new well predictions as well as the Marshlands area historic production trends.

“With the help of Apex (Apex Petroleum Engineering) we’re developing a way forward to be able to dramatically improve the historic Marcellus type curves.” said Michael Hacı, Reservoir Engineer at Tilden Marcellus, LLC .
